

THE RIGHT TO HEALTH

RIGHT TO HEALTH CONGRESS

Event Concept and Programme

About the Congress

RIGHT TO HEALTH is a congress where the pharmaceutical and health care business will answer the most urgent question of our time:

How to overcome obstacles and find new opportunities amid sanctions?

>700

PARTICIPANTS

Regulators
Pharma companies' representatives
Lawyers
Scientists
Healthcare managers

DATE

October 20, 2022

VENUE

Digital Business Space

Why the Congress is timely

The sanctions imposed on the Russian Federation in 2022 placed the domestic health care system in a new reality. The geopolitical situation disrupted fine-tuned industry processes and tools, primarily supply chains. As a result, the pharmaceutical and healthcare industry in Russia are facing a shortage or lack of medicines and medical devices, and important ingredients for manufacturing pharmaceutical products.

Issues of the domestic healthcare industry' future as a whole have taken on new urgency: for example, whether it would be possible to supply a wide range of medicines in a self-sufficient way, issues of developing scientific potential, efficient and effective business structures, of the compulsory health insurance viability, and the ability to resist external turbulence.

Goal of the Congress

The goal of **RIGHT TO HEALTH** Congress is to provide the possibility to exchange opinions not only among all the Russian parties involved, but also with their potential partners. **At the event, industry representatives will be able to share their vision of the current situation**, its problems and opportunities, as well as suggestions for developing the healthcare system.

What can the business community do to develop the health care system now? How can business and government cooperate more effectively? How can business help protect Russian patients' right to health? These and many other questions will be raised during the Congress.

ONLY SYNERGY OF EFFORTS OF ALL THE PARTIES OF INDUSTRY WILL BRING DOMESTIC HEALTHCARE TO THE NEW QUALITY LEVEL
